Remove all the constructions requirement for every area of the hideout

Options	Description
true	Turn the option to enable
false	Turn the option to disable

---

# Player values

---

## RemoveScavTimer

*Remove the savage play timer*

Options	Description
true	Turn the option to enable
false	Turn the option to disable

## ChangeSkillProgressionMultiplier

*Let you decide if you want to change default skill xp rate*

Options	Description
number	Any number can be put here to enable the option
false	Turn the option to disable

## ChangeWeaponSkillMultiplier

*Do you want to change the weapon skill multiplier?*

Options	Description
number	Any number can be put here to enable the option
false	Turn the option to disable

## DisableSkillFatigue

*Choose to disable the skill fatigue*

Options	Description
True	Let you enable the option
False	Disable the option
"Custom"	Let you use custom values defined in the following variables.

## SkillMinEffectiveness

*Enable setting by setting DisableSkillFatigue to "Custom". Lowest level of exhaustion on skills. Example 1.0: 100%, 0.5: 50% Default: 0.00001*

Options	Description
number	Any number can be put here

## SkillFatiguePerPoint

*Enable setting by setting DisableSkillFatigue to "Custom". How much fatigue acquired per point. Default: 0.5*

Options	Description
number	Any number can be put here

## SkillFreshEffectiveness

*Enable setting by setting DisableSkillFatigue to "Custom". Start value of skill effectiveness. 1.3: 130% Default: 1.3*

Options	Description
number	Any number can be put here

## SkillFreshPoints

*Enable setting by setting DisableSkillFatigue to "Custom". Default: 1*

Options	Description
number	Any number can be put here

### SkillPointsBeforeFatigue

Enable setting by setting `DisableSkillFatigue` to "Custom". Default: 1

Options	Description
number	Any number can be put here

### SkillFatigueReset

Enable setting by setting `DisableSkillFatigue` to "Custom". Default: 300

Options	Description
number	Any number can be put here

### ChangeMaxStamina

Do you want to change the maximum stamina of your pmc? | Need "UnlimitedStamina" to false.

Options	Description
number	Any number can be put here to enable the option
false	Turn the option to disable

### UnlimitedStamina

Do you want to have unlimited stamina? | Need "ChangeMaxStamina" to false.

Options	Description
true	Turn the option to enable
false	Turn the option to disable

Remove all the FIR conditions on quests requirements, that will make all quests possible to turn in with bought items.

Options	Description
true	Turn the option to enable
false	Turn the option to disable

---

# Raids values

---

## Change Map Loot Spawn Chances

Do you want to change maps specific spawn chances multipliers?

Variables	Options	Description
<b>globalsMul</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>all maps</b> .
<b>bigmap</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>Customs</b> map
<b>factory4_day</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>Factory(day)</b> map
<b>factory4_night</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>Factory(night)</b> map
<b>interchange</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>Interchange</b> map
<b>laboratory</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>Laboratory</b> map
<b>shoreline</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>Shoreline</b> map
<b>woods</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>Woods</b> map
<b>reserve</b>	Any number <b>OR</b> false	Change the loot spawn chance on <b>Reserve</b> map

### Important

This option doesn't change the quantity of loot, but the chance of rare loot to spawn. Explanation:

*The values we can tweak in AIO Mod just affect chance for rarer loot to be spawned(spawnChances), which indirectly gives more loot to be spawned*

So, it will indirectly increase loot amount, but will mostly increase quantity of rare, and very rare items to spawn.

### How the loot is spawned?

The loot is spawned with two things:

1. The loot is randomly picked in a list of all the loot(Number of picks decided in AkiConfigurator).
2. Each picked loot rolls a number and compare the item SpawnChance with the rolled number.
3. If the SpawnChance is higher than the rolled number, the loot is spawned.

### NoExtractsRestrictions

Remove the extractions restrictions for players

Options	Description
true	Turn the option to enable
false	Turn the option to disable

### AllExtractionsAvailable

Make all extractions chances to 100% which means they will always be available.

Options	Description
true	Turn the option to enable
false	Turn the option to disable

### ExtendedRaid

Extend all raids timers to around 16hour of raid time.

Options	Description
true	Turn the option to enable
false	Turn the option to disable

## RemoveLabKeycard

Let you remove the needs of using a keycard for entering labs.

Options	Description
true	Turn the option to enable
false	Turn the option to disable

## InsuranceOnAllMaps

Enables insurance on all maps (e.g. so that insurance works on labs).

Options	Description
true	Turn the option to enable
false	Turn the option to disable

## ExtractionsExtended

Make all extractions of the map you play on available to you, regardless of the side you spawned on. Which means you can extract at tunnel on shoreline, if you spawn at tunnel.

Options	Description
true	Turn the option to enable
false	Turn the option to disable

## IncreasedBossChance

Make all bosses chance of spawn to 100%

Options	Description
true	Turn the option to enable
false	Turn the option to disable

---

## Other values

---

### CompatibilityMods

Let you define which compatibility mod you want to activate. Enable it will make the mod changes untouched by my mod.

Modders are free to contact me to ask if their mod can get a compatibility option in my AIO mod.

For this to happen, your mod should contain consistent names for your items/quests or whatever you have in it. Which means, I should be able to identify all of your custom stuff with a simple word, like for example: `cgm_myCustomStuff` as “`cgm_`” is my custom additions “identity”.

Variables	Options	Description
CardGameMod	true <b>OR</b> false	Activate CardGameMod compatibility
TerragroupSpecialist	true <b>OR</b> false	Activate TerragroupSpecialist mod compatibility
CoD MW - Mil-Sim: CTSFO I	true <b>OR</b> false	Activate CoD MW - Mil-Sim: CTSFO I mod compatibility
Additionnal Gear - Tan	true <b>OR</b> false	Activate Additionnal Gear – Tan mod compatibility
Additionnal Gear - Black	true <b>OR</b> false	Activate Additionnal Gear – Black mod compatibility
Additionnal Gear - Untar	true <b>OR</b> false	Activate Additionnal Gear – Untar mod compatibility
Additionnal Clothing	true <b>OR</b> false	Activate Additionnal Clothing mod compatibility
Andrudis Quest Maniac	true <b>OR</b> false	Activate Andrudis Quest Maniac mod compatibility

### Pre-wipe events

Let you enable some of the pre-wipes events that happened on live servers.

Name	Options	Description
Raiders on all maps	True/false	Make all raiders spawn on every maps
Killa on factory	True/false	Make Killa spawn on factory
All bosses on reserve	True/false	Make all bosses to spawn on reserve
All traders sells cheap items	True/false	Make all traders sells their item very very cheap
Make Obdolbos Powerfull	True/false	Make the obdolbos buff powerfull
Gluhkar on labs	True/false	Make Gluhkar spawn onlabs

Putting any of these options to “false” WON'T disable existing, built-in server events. It only disables the action of my mod (aka adding them).

### HideWarningMessage

Put this to true if you have taken account all the informations above and it will hide the warning message on the server screen.

Options	Description
true	Turn the option to enable
false	Turn the option to disable

### ShowModLogs

Let you disable all shown logs in the console from the mod.

Options	Description
true	Turn the option to enable
false	Turn the option to disable
